TITLE III – DEPARTMENT OF EDUCATION
EDUCATION FOR THE DISADVANTAGED

Chronic Absenteeism.—The agreement notes the Department’s intention to conduct additional monitoring of States’ implementation of school improvement requirements in the Elementary and Secondary Education Act (ESEA), including in States that have adopted chronic absenteeism as the statewide school quality and student success indicator. However, in response to the alarming 31 percent nationwide rate of chronic absenteeism in the 2021-2022 school year and recent GAO reports on implementation of school improvement requirements of ESEA, the agreement believes the Department must also improve the quality and rigor of such monitoring.

Within 60 days of enactment of this Act, the agreement directs the Department to submit a plan and brief the Committees on how its additional monitoring will assess applicable States’ effectiveness in using chronic absenteeism as an indicator in identifying schools in need of support and improvement. Further, the plan and a second briefing provided not later than 90 days after enactment must also explain how the Department will monitor and support, through coordinated technical assistance and available program funding, States’ and districts’ effectiveness in monitoring and supporting implementation of evidence-based interventions intended to improve student attendance and engagement in identified schools. In addition, the Department must consider steps it can take to support State and local efforts to raise public awareness about the need to lower student absenteeism.

School Improvement.—The Department is directed to conduct performance reviews to assess compliance with Title I-A of the ESEA for at least 5 State Educational Agency (SEAs) in 2024 and report how it will conduct and complete this monitoring and its plans for increased future monitoring to the committees of

Further, the Department must be prepared to discuss how the notice and Department's monitoring and evaluation activities of the Comprehensive Centers program will strengthen SEA and LEA technical assistance and support for and SEA, LEA, and school implementation of all the school improvement requirements of ESEA. Particularly, technical assistance should focus on how to consistently and effectively meet requirements for SEAs and LEAs to ensure schools identified for comprehensive and additional targeted support and improvement identify school resource inequities to be addressed through implementation of their improvement plans and for SEAs to periodically review resource allocation within LEAs with significant numbers of identified schools and how the education resources of those LEAs compare to education resources of other LEAs in the State.

INSTITUTE OF EDUCATION SCIENCES

Statistics

National Postsecondary Student Aid Study (NPSAS).—The mission of the NCES includes the reporting of education information and statistics in a timely manner and collection, analysis, and reporting of education information and statistics in a manner that is relevant and useful to practitioners, researchers, policymakers, and the public. While NCES has taken important steps to develop a strategic plan and conduct outreach to stakeholders, there is concern about its decision to propose a revision to the NPSAS data collection schedule without sufficient stakeholder engagement and consideration of the important information NPSAS provides to researchers, policymakers, and the public. In recognition of the vital role of NPSAS in postsecondary empirical research and analysis, the agreement directs NCES to restore the study's traditional data collection schedule to every two years, for NPSAS 2024 and NPSAS 2026, with a student interview included every four years, for NPSAS 2024 and NPSAS 2028. Going forward, NCES should maintain strong engagement with the postsecondary empirical research community and the Committees as it continues strategic planning and stakeholder engagement activities and only consider future changes to the NPSAS collection schedule, after first soliciting feedback from the postsecondary empirical research community and the Committees.

Assessment

Civics.—The agreement directs the National Center for Education Statistics (NCES) and the National Assessment Governing Board to provide an update on the plans, budgetary requirements, and timeline for the National Assessment of Educational Progress Civics Assessment to the Committees no later than 90 days after enactment of this Act.

DEPARTMENTAL MANAGEMENT

PROGRAM ADMINISTRATION

Consultation and Briefing Requirement.—The Department is directed to consult with the Committees on any Department action expected to significantly increase or decrease current or future costs of programs it administers. In addition, the Department is directed to consult with the Committees on any execution action related to any program or activity for which a directive is included in Senate Report 118-84 or this explanatory statement not later than 4 weeks prior to a public announcement related to such action. Further, the Department is directed to brief the Committees on any action covered by this consultation requirement, including consideration and incorporation of feedback during such initial consultation, not later than 1 week prior to a public announcement related to such action. This paragraph does not replace a more specific directive to a program or activity included in this explanatory statement.

Discretionary Grant Program Management.—There is concern that the Department's late publication of notices inviting applications and awarding of discretionary grant program funds late in the fiscal year limits the use of Federal funds toward timely and maximal achievement of grantee performance and program objectives. The agreement directs the Department to develop and

implement a plan to execute its discretionary grant programs in a timely way, through publication of notices inviting applications and obligation of grant funds earlier in the fiscal year. The agreement further directs the Department to provide the Committees with an update on accelerated execution timelines for its discretionary grant programs within 120 days of enactment of this Act, as well as in the Forecast of Funding Opportunities under the Department of Education Grant Programs for fiscal year 2025.

Investments in Impoverished Areas.—The agreement directs the Department to update the report provided to the Committees in response to the directive under this heading in House Report 117-403, within 90 days of fiscal year 2023 data being available.

Office of Communications and Outreach.—The Department is directed to provide a letter to the Committees on Appropriations within 30 days after enactment of this Act detailing how it complies with statutory requirements regarding influencing legislation and what training employees receive on such statutory requirements.

Program Administration.—The agreement notes new bill language prohibiting funds from being used on or after August 15, 2024, to support a number of non-career employees that is above the number of non-career employees as of December 31, 2022. The Department failed to comply with the direction to achieve this level in last year's explanatory statement and should take immediate action

necessary to comply with this directive and new bill language requirement as soon as practicable. The agreement further notes monthly staffing reports directed by Senate Report 118-84 will be closely scrutinized and should demonstrate the Department's progress in coming into compliance with this directive and new bill requirement.

OFFICE FOR CIVIL RIGHTS

Section 8546 Prohibition on Aiding and Abetting Sexual Abuse.—The Department is directed to brief the Committees on key actions completed and plans to ensure State and local compliance with the requirements of section 8546 of the ESEA not later than 90 days after enactment of this Act. Such briefing shall include a discussion of actions taken on recommendations from the Department-funded “Study of State Policies to Prohibit Aiding and Abetting Sexual Misconduct in Schools”, and other technical assistance and support, enforcement and accountability actions, implementation challenges, and the metrics the agency is using to measure improved State and local compliance with this section of the law.
